

Ayachi Zammel — Ben Arous governorate

One candidate, one extent, at full page size. The scale is the same fixed 0–100% one every share figure here uses, so a shade means the same value as on any other map; the bracket on the bar and the subtitle both give this extent's own range.

This family previously classed on the extent's own quantiles, which spent the whole ramp on local variation at the cost of meaning nothing outside the map. With the scale fixed it no longer does, so what this adds over the matching panel of zoom_* is size, not a different reading.

Neighbouring imadas are drawn in light grey for orientation and carry no value. 2024 Tunisian presidential election · shares of valid votes at certified stations · imada level · boundaries OCHA/HDX COD-AB (CC BY-IGO)
