

Ayachi Zammel — margin over his strongest rival

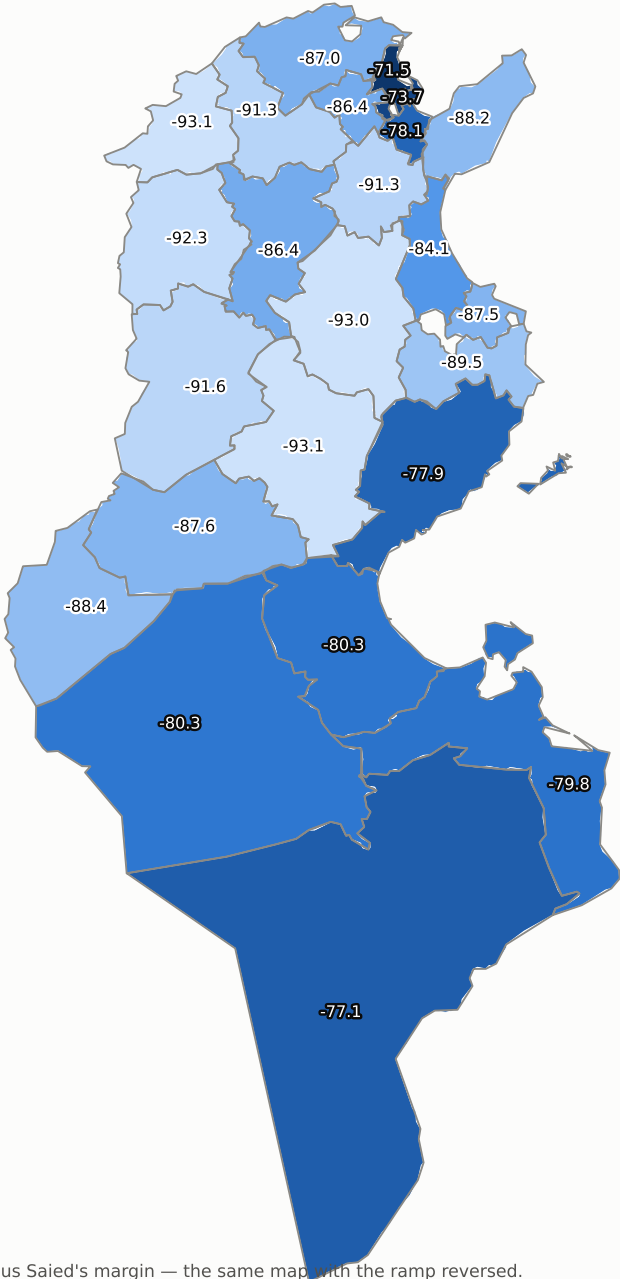

governorate level · 24 units
own share minus the strongest rival's

percentage points (negative: behind the leader)

this bar is
11% of the
full range

24 mapped units

Zammel is runner-up in every unit at this level, so this is exactly minus Saied's margin — the same map with the ramp reversed. Darker is a better result for this candidate. THE SCALE IS FITTED TO THIS MAP: the ramp spans -93.1 to -71.5 points, not the full -100 to +100, which is about 9 times the contrast of the fixed-scale version — aggregating to 24 units leaves these margins in a very narrow band, so the fixed version is almost uniform. The price is that a shade means nothing on any other figure; the strip beside the bar shows the window, and the number on each unit is its own margin. For a comparable shade use `maps/levels/zammel_margin_governorate.*`
