

The largest family name in each delegation

2024 ISIE voter register (6 July 2024), 264 delegations, 187 different names leading one of them. A patronymic is a father's name rather than a family name and does not count here; one would have led in 3 delegations.

209 delegations led by one of the other 180 names

Next after these, by delegations led: Bjaoui (5), Saleh (4), Riahi (4), Salhi (3), Charni (3)

Leading is not dominating: the leading name holds a median 3.1% of its delegation's electorate (quartiles 1.9% and 5.2%), and in 8% of delegations it leads the second name by under ten voters.

No two of these 7 colours are closer than 13.0 CIEDE2000, and 15.1 where two share a border, under normal vision and all three dichromacies. 7 carry one because that is what the palettes allow.

A name written with the definite article and without it is pooled as one name.
