

The largest local family name in each imada

the same register read over its 425 concentrated names only — those with at least 1,000 holders and a Herfindahl index over imadas of 0.05 or more, which is what makes a name local rather than national

Maalaoui المعلاوي
leads 46 imadas · 4,253 voters there

Alih عليه
leads 26 imadas · 3,944 voters there

Sediri السديري
leads 22 imadas · 2,016 voters there

Medini المديني
leads 21 imadas · 2,083 voters there

Mebrouki مبروكي
leads 21 imadas · 3,194 voters there

Aboud عبود
leads 20 imadas · 1,324 voters there

Hedaji هداجي
leads 20 imadas · 2,543 voters there

1,888 imadas led by one of the other 400 local names

20 imadas hold none of them at all

Next after these, by imadas led: Chouali (18), Dhibi (17), Khlfi (16), Faidi (16), Mernisi (16)

Leading is not dominating: the leading name holds a median 1.3% of its imada's electorate (quartiles 0.4% and 4.3%), and in 44% of imadas it leads the second name by under ten voters.

No two of these 7 colours are closer than 13.0 CIEDE2000, and 38.9 where two share a border, under normal vision and all three dichromacies. 7 carry one because that is what the palettes allow. A name written with the definite article and without it is pooled as one name.
Counts: ISIE preliminary voter register, 6 July 2024, summed to the imada through data/surname_imada_crosswalk.csv. Boundaries: OCHA COD-AB admin4.
