

How each candidate did against his own national average, by governorate

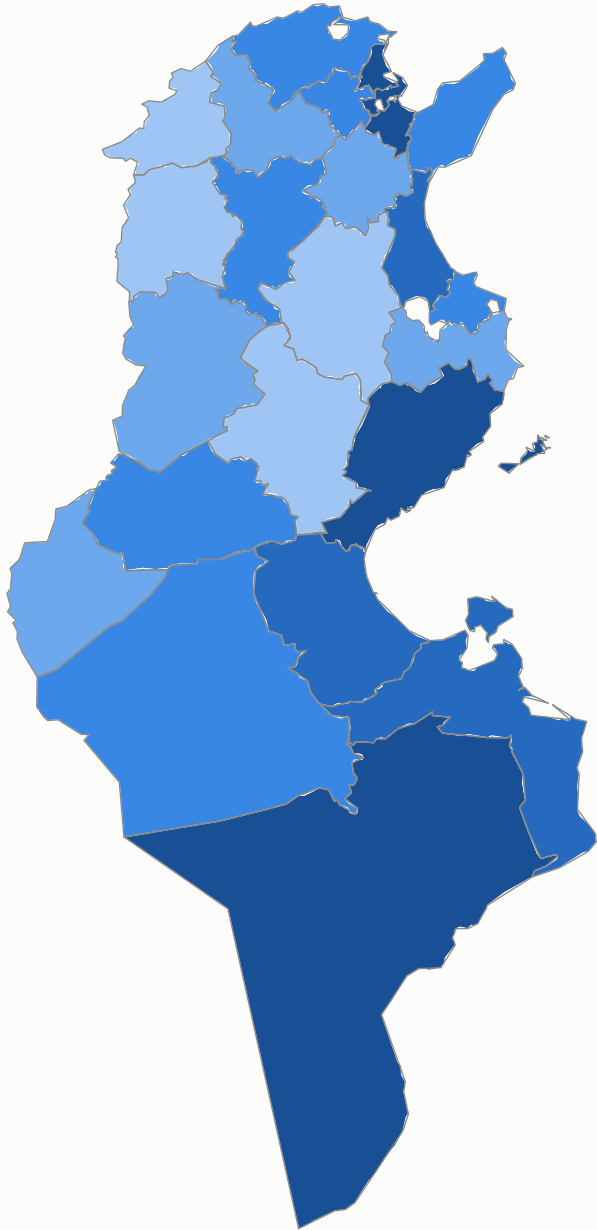

Kais Saied

national 91.12% · observed 0.93–1.05×

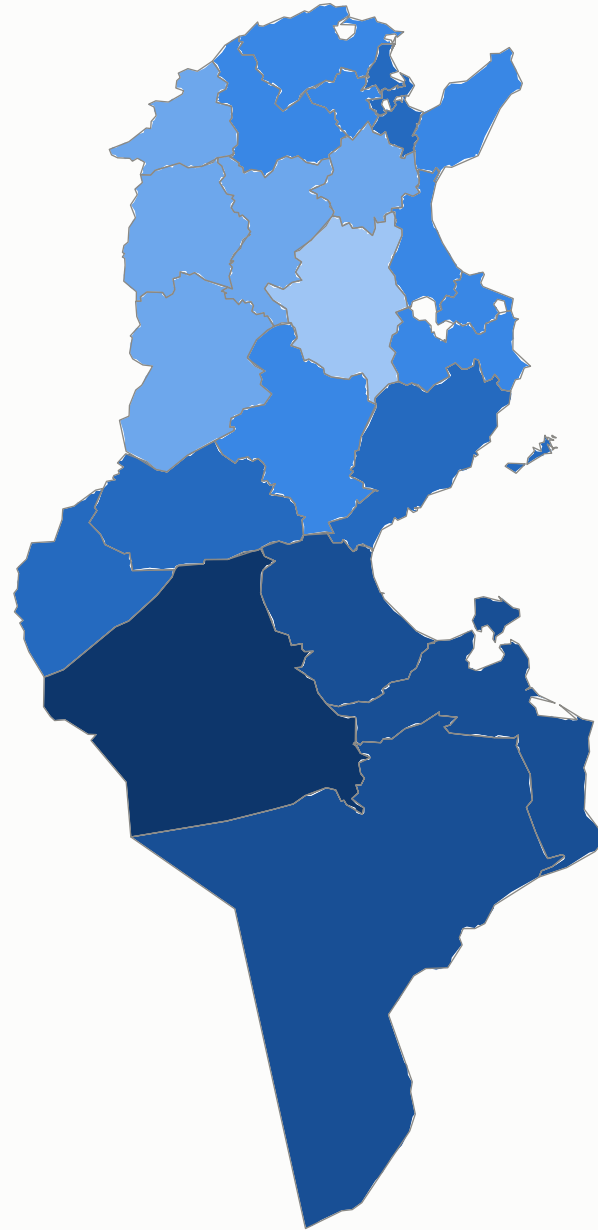

Ayachi Zammel

national 6.98% · observed 0.38–1.86×

Zouhair Maghzaoui

national 1.89% · observed 0.49–3.44×

ONE shared scale: the same shade means the same multiple of that candidate's national share, and the boundary at 1.00×

is that average. Saied is nearly flat because he cannot exceed 1.10×

— at a 91.12% national share, a unit giving him 100% is only 1.10 times it.
