

The six commonest family names, on one map

registered voters bearing each name, 2024 ISIE register — patronymics excluded, since the commonest string of all is a father's name, not a family name

● **Abidi** العبيدي

●●● 1 dot = 50 voters

Six rather than seven: exhaustively searched over five published qualitative palettes, the best six colours stay 16.1 CIEDE2000 apart under normal vision and all three dichromacies, where the best seven fall to 13.0.

These six are everywhere at once — which is what a common name is. The concentrated names, each sitting in one district, are in `overlay_four_names`.

Dots fall at random inside the imada that holds them: the count per imada is data, the position within it is not. Counts: ISIE preliminary voter register, 6 July 2024.
Boundaries: OCHA COD-AB admin4.
