

Zouhair Maghzaoui

kernel-smoothed surface · vote-weighted
local bandwidth · nearest neighbour

2024 Tunisian presidential election · each imada centroid is a sample, weighted by its certified valid votes.
The bandwidth is local: every sample is smoothed over its own nearest-neighbour distance (median 4.2 km, max 105 km), chosen by leave-one-out cross-validation.
Grey: the nearest place that voted is more than 30 km away, so no estimate is drawn. Boundaries: OCHA/HDX COD-AB (CC BY-IGO).
Class breaks are the imada quantiles, as in the choropleths.
