

2024 Tunisian presidential election: candidate support by delegation

Kais Saied

59.7–97.7

share of valid votes (%)

264 mapped units

Ayachi Zammel

1.3–35.1

share of valid votes (%)

264 mapped units

Zouhair Maghzaoui

0.5–15.3

share of valid votes (%)

264 mapped units

Saied's margin over his strongest rival

24.6–96.3

percentage points

264 mapped units

Shares of valid votes at certified stations. EACH PANEL HAS ITS OWN SCALE, fitted to the values that panel contains — the range is under each title and the strip beside each bar shows the window against the full 0–100. So the panels show WHERE each candidate was strong, and the colours must NOT be read across them: Maghzaoui's darkest units are near 15% where Saied's are near 98%. Use `maps/national/composite_delegation.*` to compare levels. Boundaries: OCHA/HDX COD-AB (CC BY-IGO).
