

Kais Saied — margin over his strongest rival

governorate level · 24 units
own share minus the strongest rival's

percentage points (negative: behind the leader)

24 mapped units

Saied leads every unit at this level, so this margin is his lead over Zammel throughout.
Darker is a better result for this candidate. THE SCALE IS FITTED TO THIS MAP: the ramp spans +71.5 to +93.1 points, not the full -100 to +100, which is about 9 times the contrast of the fixed-scale version — aggregating to 24 units leaves these margins in a very narrow band, so the fixed version is almost uniform. The price is that a shade means nothing on any other figure; the strip beside the bar shows the window, and the number on each unit is its own margin. For a comparable shade use [maps/levels/saied_margin_governorate](#).
