

Turnout by governorate

summed from the delegation table on the matched basis · national rate 30.38% · scale fitted to this map (19% of the full range)

SCALE FITTED TO THIS MAP: the ramp spans 17.1% to 35.9%, about 5 times the contrast of the fixed-scale version — aggregating to 24 units leaves turnout in a narrow band, so the fixed one is nearly uniform. A shade here means nothing on any other figure; maps/turnout/turnout_governorate.* is the comparable one.

Zaghouan 35.9% · Tozeur 34.3% · Nabeul 33.9% · Siliana 33.5% · Manubah 32.9% · Kasserine 32.9% · Sfax 32.7% · Monastir 32.4% · Le Kef 31.9% · Ben Arous 31.5% · Ariana 31.5% · Béja 31.4% · Kebili 30.7% · Sidi Bou Zid 30.5% · Sousse 29.5% · Tunis 29.5% · Mahdia 29.3% · Kairouan 28.7% · Bizerte 28.1% · Jendouba 28.1% · Gafsa 27.3% · Gabès 26.6% · Médenine 19.9% · Tataouine 17.1%

Rolled up from the delegation table by summing the matched numerator and denominator, not by averaging the level below: a 3,000-voter delegation must not weigh the same as a 60,000-voter one. Range 17.1% to 35.9%.

The registered count is the only field in this dataset that no identity on the form checks — the one field read by classifier alone — so turnout is a certified numerator over an uncertified denominator, and is weaker evidence than any candidate figure mapped elsewhere in this directory.
