

Ayachi Zammel — Mahdia governorate

Class breaks are LOCAL: quantiles of this candidate's share among the imadas of THIS extent only, so the whole ramp is spent on the variation inside it. A shade therefore means nothing outside this map — for comparisons across extents use `zoom_*` or `zoom_ratio_*`. The subtitle gives this extent's own range and the national share. Neighbouring imadas are drawn in light grey for orientation and carry no value. 2024 Tunisian presidential election · shares of valid votes at certified stations · imada level · boundaries OCHA/HDX COD-AB (CC BY-IGO)
